Highway 75 construction to reach downtown

The third year of rebuilding Highway 75 is beginning. The focus of 2025 construction will be from 5th St. S, where it ended last year, to 4th St. N, near the fire station downtown. Crews will first install new water mains, then remove pavement and old utilities. Next, they will install new sewer and storm sewer, then grade and pave the roadway. After this, crews will install new driveways, sidewalks, and landscaping.

Parts of Highway 75 will be fully closed this construction season. Traffic will still be able to continue into Sioux Center on Highway 75 from the north and south. The highway will reopen to two-way traffic this winter.

When completed, Highway 75 will have

two lanes of traffic each way, center turn lanes, medians, and sidewalks, with the design centered on safety, function, and Sioux Center's character. See concepts at www.siouxcenter.org/highway75
